
**THE REALITY OF
ENTREPRENEURSHIP CONCEPT FOR
UNIVERSITY STUDENTS IN EGYPT
AND THE ROLE OF EDUCATION IN
DEVELOPING IT: A FIELD STUDY AT
ASSIUT UNIVERSITY**

*Dr. Aml Ali Mahmoud Sultan Ahmed**

Abstract

The current research has aimed at identifying the concept of entrepreneurship for University Students in Egypt and the Role of Education in Developing this concept. To achieve this aim, the researcher has used the descriptive method. The questionnaire has been applied on a representative sample at the Final grades at some theoretical and applied Faculties at Assiut University, the number of the sample reached (1193) student from both sexes. The Findings of the research has revealed that Percent (% 66) of students – research sample – do not realize the right concept of entrepreneurship. Based on the research Findings, the researcher has set a suggested proposal to activate the role of education at Assiut University in Developing the reality of entrepreneurship for Students.

Keywords: Entrepreneurship – University Education.
