Abstract:

The aim of the research is to identify the effectiveness of a program based on the model of learning dimensions in developing some literary appreciation skills for secondary school students. The researcher prepared, a list of literary taste skills, a test of literary taste skills and a teacher's guide according to the proposed program. The research group consisted of (60) first-year students from the secondary school who were divided into two groups, one experimental studied using the proposed program and the other studied Using the traditional
